WASANKAR Wealth Management, a leading financial advisor and investment consultant celebrated their 21st anniversary on Monday with great fanfare. Speaking on the occasion, Dr Prashant Wasankar, Chairman, Wasankar Wealth Management Ltd. said, "There was a great void when it comes to offering the right advice to investors and there was a clash between investor's interest and business interest in the existing business

models. Three years ago we decided to fill this void and offer unbiased advice without affecting business interest. We became the pioneer in launching fee-based advisory services through the unique concept of 'Premium Life Membership'. We have been able to create a service model that even the established big names in the industry have been unable to match. 2000 plus membership in a short span of years despite 5 fold increase in life membership fee is testimony to its accept-

ance and huge success."

Wasankar Wealth Management is launching three new services including exclusive tie up with ICICI bank for loans against securities with individual specific advice for using the funds such as restructuring of costly loans, leveraging in derivative markets, margin funding for hedging operations, etc.

Another service is tax advisory services in which tax planning and filing of returns is undertaken. The third service is corporate member-

ship offering investment advisory services for business house as well as the promoters with corporate discounts for employees choosing membership.

The 21st anniversary celebrations were held at Kasturchand Park with a laughter filled evening with Raju Shrivastava. While thanking the members, Dr Prashant Wasankar said that his ambition is to make Wasankar Wealth Management Ltd. a company of the members, for the members and by the members.
