

## **Press Release**

### **Wasankar hits double century**

***Weekly Investors' Meet is an exclusive service provided to its members by Wasankar Wealth Management Ltd. Members also have the facility to watch audio & video relay of the weekly meets anywhere from the world through [www.wasankarwealth.com](http://www.wasankarwealth.com). 'An informed investor is an empowered investor' is the favorite quote of Dr. Prashant Wasankar, Chairman of this leading wealth management company. The key purpose of the meet is to educate investors about investment concepts, changes happening in economy and industries and investment strategies to be adopted from time to time. In short, the purpose is to create truly informed investors.***

**Conducting regular weekly meets is no small feat. Wasankars will score a double century with 200<sup>th</sup> Investors' Meet on Sunday, 28<sup>th</sup> November 2010. The theme for the 200<sup>th</sup> Investors' Meet will revolve round "Riding the Bull".**

Liberalization and economic reforms have given India the status of a developed country in just under 2 decades. Indian Equity market saw a fantastic run up to 21K levels. Global financial crisis brought about a swift fall to 8K levels. It was the market that was affected severely and not the Indian Economy. SENSEX rebounded to recapture the 21K level this Diwali. There is a lot of misconception about Bull Run, Corrections and Bear Phase. Retail Investors still find it difficult to grasp the India Growth Story and what it could do to the market. Statistics show that majority of retail investors did not really benefit from the previous run up to 21K levels as entry in to Equity market was taken only towards the last leg of the run up.

What is a Bull Run? What is Correction in the markets? How far and how long can a Bull Run last? What is the correlation between Economic Growth and Market Growth? What are the lessons to be learnt from Bull Run in developed countries? Why markets crash? What are the lessons to be learnt from some of the biggest market crashes in the world? These are some of the major questions that would be discussed in the 200<sup>th</sup> Meet.

***Wasankar Research gets top rating when it comes to rendering practical and timely advice. Switch to Gold in 2007, Exit Call in January 2008, Re-entry call in March 2009 show the depth of analysis and foresight in anticipating changes in economy and market. To quote Dr. Prashant Wasankar, "Markets move ahead of events and so should the Investors'. 200<sup>th</sup> Investor meet will also cover strategies to be adopted by Investors for benefiting from Bull Run riding on the back of India's Growth.***

200<sup>th</sup> Investors' Meet promises a most delightful and educative session on how investors can create and enhance wealth through equity market in line with India's Growth. Mr. Ramkumar Iyer, Chief Advisor will handle this meet. He has 25 Plus years of experience in the field of finance, management and technical analysis. This meet will be a prelude to WEALTHNOMICS 2011, Seminar by Dr. Prashant Wasankar tentatively scheduled for January/February 2011.
